Lottoland

STEP 01.

Each product has its own predetermined list.

Each list is 10 Billion Rows Long.

Column A is titled Result ID whilst Column B is titled Winning Numbers.

STEP 02.

The player fills in our onsite bet slip, selecting the numbers they hope will win.

How Does Mapping Work?
A Step-By-Step Guide

STEP 03.

When it's time to result, Lottoland takes the financial index values which determines the result ID.

How Does Mapping Work?
A Step-By-Step Guide

STEP 04.

Lottoland simply scrolls down the list to find this Result ID & identifies the matching Winning Numbers.

How Does Mapping Work?
A Step-By-Step Guide

STEP 05.

Lottoland then results your bet's numbers against this Winning Number.

If the numbers match, the player wins the jackpot.
